Hanna and Flavia on behalf of the Newsletter Group

Dear Y-GRAPPiAns, dear colleagues and friends,

We are excited that we will celebrate the second anniversary of Y-GRAPPA at the GRAPPA Annual meeting in July 2023. This year, it is held in Dublin, Ireland, and we plan to update you all about successes, new plans, and most importantly: reconnect!

Y-GRAPPA has grown in several ways in the last year; Y-GRAPPA almost doubled in number of members, and welcomed the 100<sup>th</sup> Y-GRAPPiAn this January. The subgroups have been very active and we are very thankful for your enthusiastic input and support. To mention some of these successes: GRAPPA's activity on social media channels; the GRAPPA slide library is currently being revised and updated entirely in close collaboration with the GRAPPA education group; the education subgroup of Y-GRAPPA created several video interviews (and will create another set this year!); the online ACR highlights session.

For all new Y-GRAPPiAns and everyone else who would like to get more involved: feel free to contact any of the subgroup leaders or one of the chairs directly, or email [young.grappians@gmail.com](mailto:young.grappians@gmail.com) - we are very happy to have you on board and get you involved!

*Kind regards and stay safe.*

*Fabian and Leonieke as current Y-GRAPPA Chairs*

# Y-GRAPPA GROUP HIGHLIGHTS

## EDUCATION

Leader: Gizem Ayan

### GRAPPA Slide Library update

This is moving forward with the great collaboration of 24 senior GRAPPA members 14 Young GRAPPIAns. We will update the Slide Library on a regular basis and one future idea is to translate the slides to various languages.

### Do Not Miss (DNM) Pearls

Want to know what abstracts not to miss at the ACR, EULAR, AAD and EADV congresses? A steering committee with 3 members from the Educational Group organises contributors for a DNM newsletter before each congress.

Upcoming projects include more visibility with videos, and case of the month preparations.

## WEBSITE

Leader: Roxana Coras
